Asilomar 2002  
Pre-Conference Announcement  
36<sup>th</sup> Asilomar Conference on Signals,  
Systems and Computers

November 3<sup>rd</sup> – November 6<sup>th</sup> 2002  
Asilomar Conference Center  
Pacific Grove, CA  
[web.nps.navy.mil/~asilomar](http://web.nps.navy.mil/~asilomar)

The Asilomar Conference meeting is a yearly held meeting which provides a unique, and high quality forum for the presentation and discussion of technical research results in the general area of Signal Processing and its applications. Presentations are held in both lecture and poster sessions to facilitate interactions between participants.

Proposals for special sessions are invited from the community. They should be submitted by *January 15<sup>th</sup>, 2002*, to [scharf@engr.colostate.edu](mailto:scharf@engr.colostate.edu) or [friedlan@cse.ucsc.edu](mailto:friedlan@cse.ucsc.edu) and must include a topical title, rationale, session outline, contact information, and a description of how the session will be organized. Special sessions will follow format constraints applied to sessions for the 2001 Conference. Prospective organizers are referred to the conference website to get further information regarding the technical program format.

Further information regarding paper submission and topics of interest to the 2002 Conference will be added to the website in Fall 2001 as they become available.
